Forging Silver Into Stars Brigid Kemmerer 2022-06-07 New York Times bestselling author Brigid Kemmerer expands the Cursebreaker world in an electrifying new series. When ancient magic tests a newfound love, a dark fate beckons . . . Magic has been banished in the land of Syhl Shallow for as long as best friends Jax and Callyn can remember. They once loved the stories of the powerful magesmiths and mythical scavers who could conjure fire or control ice, but now they've learned that magic only leads to danger: magic is what killed Callyn's parents, leaving her alone to raise her younger sister. Magic never helped Jax, whose leg was crushed in an accident that his father has been punishing him for ever since. Magic won't save either of them when the tax collector comes calling, threatening to take their homes if they can't pay what they owe. Meanwhile, Jax and Callyn are astonished to learn magic has already returned to Syhl Shallow--in the form of a magesmith who's now married to their queen. Now, the people of Syhl Shallow are expected to allow dangerous magic in their midst, and no one is happy about it. When a stranger rides into town offering Jax and Callyn silver in exchange for holding secret messages for an anti-magic faction, the choice is obvious--even if it means they may be aiding in a plot to destroy their new king. It's a risk they're both willing to take. That is, until another visitor arrives: handsome Lord Tycho, the King's Courier, the man who's been tasked with discovering who's conspiring against the throne. Suddenly, Jax and Callyn find themselves embroiled in a world of shifting alliances, dangerous flirtations, and ancient magic . . . where even the deepest loyalties will be tested.

The Age of Silver Ning Ma 2016-11-24 The Age of Silver advances a "horizontal" method of comparative literature and applies this approach to analyze the multiple emergences of early realism and novelistic modernity in Eastern and Western cultural spheres from the sixteenth through the eighteenth centuries. Naming this era of economic globalization the Age of Silver, Ning Ma emphasizes the bullion flow from South America and Japan to China through international commerce, and argues that the resultant transcontinental monetary and commercial co-evolutions stimulated analogous socioeconomic shifts and emergent novelistic realisms. The main texts addressed within include The Plum in the Golden Vase (China), Don Quixote (Spain), The Life of an Amorous Man (Japan), and Robinson Crusoe (England). These Eastern and Western narratives indicate from their own geographical vantage points commercial expansions' stimulation of social mobility and larger processes of cultural destabilization. Their realist tendencies are underlain with politically critical functions and connote "heteroglossic" national imaginaries. This horizontal argument realigns novelistic modernity with a multipolar global context and reestablishes commensurabilities between Eastern and Western literary histories. The Age of Silver challenges the unilateral equation between globalization and modernity with westernization, and foregrounds a polycentric mode of global early modernity for pluralizing the genealogy of world literature and historical transcultural relations.

Accounting for the Fall of Silver Michael Schiltz 2020-10-20 The second half of the nineteenth century is correctly known to have culminated in the emergence of the gold standard as the first truly international monetary regime. The processes leading up to this remarkable feat are, however, far less documented or understood. Economic historians have only recently started digging into the causes behind the 'fall of silver' that preceded the scramble for gold. It is nowadays clear that its effects were felt worldwide. Not in the least, silver depreciation severely affected East-West trade. It was, among other factors, behind the bankruptcy of several powerful institutions as the Oriental Bank Corporation. Yet at the same time, it cemented the position of other banks, some of which exist until this very day (HSBC, Standard Chartered). What did these banks know that others did not? In Accounting for the Fall of Silver, Michael Schiltz explains that the 1870s and 1880s witnessed furious experiments with new financial products and, equally important, strategies for hedging exchange rate risk. Drawing on archives that have never been used before, the book throws new light on an important episode of nineteenth century world history. At the same time, it illuminates lesser known aspects of the first gold standard period. It draws attention to the existence of 'carry trades' between European money markets and the lesser liquid Asian periphery; and describes the creation of financial contracts with the sole aim of enabling commodity finance among Asian mercantile centers.

Silver Cities Peter Bacon Hales 2005 This vastly expanded edition presents a lively interdisciplinary history of the first century of urban photography in America. ***Silver, Sword, and Stone*** Marie Arana 2019-08-27 Winner, American Library Association Booklist's Top of the List, 2019 Adult Nonfiction Longlisted for the 2020 Andrew Carnegie Medals for Excellence Against the background of a thousand years of vivid history, acclaimed writer Marie Arana tells the timely and timeless stories of three contemporary Latin Americans whose lives represent three driving forces that have shaped the character of the region: exploitation (silver), violence (sword), and religion (stone). Leonor Gonzales lives in a tiny community perched 18,000 feet above sea level in the Andean cordillera of Peru, the highest human habitation on earth. Like her late husband, she works the gold mines much as the Indians were forced to do at the time of the Spanish Conquest. Illiteracy, malnutrition, and disease reign as they did five hundred years ago. And now, just as then, a miner's survival depends on a vast global market whose fluctuations are controlled in faraway places. Carlos Buergos is a Cuban who fought in the civil war in Angola and now lives in a quiet community outside New Orleans. He was among hundreds of criminals Cuba expelled to the US in 1980. His story echoes the violence that has coursed through the Americas since before Columbus to the crushing savagery of the Spanish Conquest, and from 19th- and 20th-century wars and revolutions to the military crackdowns that convulse Latin America to this day. Xavier Albó is a Jesuit priest from Barcelona who emigrated to Bolivia, where he works among the indigenous people. He considers himself an Indian in head and heart and, for this, is well known in his adopted country. Although his aim is to learn rather than proselytize, he is an inheritor of a checkered past, where priests marched alongside conquistadors, converting the natives to Christianity, often forcibly, in the effort to win the New World. Ever since, the Catholic Church has played a central role in the political life of Latin America—sometimes for good, sometimes not. In Silver, Sword, and Stone Marie Arana seamlessly weaves these stories with the history of the past millennium to explain three enduring themes that have defined Latin America since pre-Columbian times: the foreign greed for its mineral riches, an ingrained propensity to violence, and the abiding power of religion. What emerges is a vibrant portrait of a people whose lives are increasingly intertwined with our own.

The Mining and Metallurgy of Gold and Silver J. Arthur Phillips 2021-11-05 Reprint of the original, first published in 1867.

Night of the Silver Stars William Randolph Phillips 1997 During the night of 6-7 February 1968, two dozen U.S. Army Green Berets and several hundred indigenous troops held off a numerically superior force of North Vietnamese tanks and infantry in one of the finest, most exciting examples of collective bravery, endurance, and the will to survive any war has produced. Here for the first time is the full account of that violent, deadly stand by Special Forces team A-101 at the tiny compound of Lang Vei. Nineteen Silver Stars, a Distinguished Service Cross, and a Medal of Honor were awarded, yet until now the battle has languished in the war's shadows. Making use of extensive interviews with survivors, recently uncovered oral histories, and official records, author William Phillips presents astounding tales of individual and team courage against overwhelming odds. He vividly recounts the story of eight Green Berets who held out all night against tank, grenade, and flamethrower attacks. He details the embattled camp's controversial and much-delayed relief and extraction--not by the U.S. Marines from Khe Sanh nine miles away but by super-secret MACV-SOG commandos and an air campaign of unprecedented proportions. Phillips focuses on four Green Berets, including his first cousin, missing in action since the battle, to deliver a poignant, unforgettable portrait of some of America's finest soldiers leading their cherished Bru and Hre montagnard charges in the battle of their lives. A Vietnam combat veteran himself, Phillips weighs and analyzes the conflicting stories of snarled communications, faulty weapons, countermanded orders, and service rivalries to flush out the truth of Lang Vei. His balanced, highly readable account serves as a testament to those special warriors of whom so much was asked during the Vietnam War.

Tombstone's Treasure Sherry A. Monahan 2007 Sherry Monahan is an authority on the city that wouldn't die and its history. In Tombstone's Treasure, she focuses on the silver mines, one reason for the city's founding, and the saloons, the other reason the city grew so quickly. When the discovery of silver at Tombstone first became known in mid-1880, there were about twenty-six saloons and breweries. By July of the following year, the number of saloons in Tombstone had doubled. The most popular saloon games of the time were faro, monte, and poker, with some offering keno, roulette, and twenty-one. Monahan shares true tales about Tombstone's mining and gambling history and describes a different time and locale where wealthy businesspeople and rugged miners rubbed elbows at the bar and gambled side by side. It is both shocking and enlightening to learn just how sophisticated Tombstone really was when the Earps, Doc Holliday, Johnny Ringo, and Curly Bill strode the boardwalks. Tombstone actually had telephones, ice cream parlors, coffee shops, a bowling alley, and a swimming pool. Wow! It is so contrary to the Hollywood version of the town . . . but it's absolutely true.--from the Foreword by Bob Boze Bell
