*The Circle* Dave Eggers 2013-10-08 A bestselling dystopian novel that tackles surveillance, privacy

and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world’s most powerful internet company, she feels she’s been given the opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users’ personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company’s modernity and activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can’t believe her luck, her great fortune to work for the most influential company in the

world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman’s ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge.

### **A Gentleman in Moscow** Amor Towles

2019-03-26 The mega-bestseller with more than 2 million readers, soon to be a

Showtime/Paramount series starring Ewan McGregor as Count Alexander Rostov From the #1 New York Times-bestselling author of The Lincoln Highway and Rules of Civility, a beautifully transporting novel about a man who is ordered to spend the rest of his life inside a luxury hotel In 1922, Count Alexander Rostov is deemed an unrepentant aristocrat by a Bolshevik tribunal, and is sentenced to house arrest in the Metropol, a grand hotel across the street from the Kremlin. Rostov, an indomitable man of erudition and wit, has never worked a day in his life, and must now live in an attic room while some of the most tumultuous decades in Russian history are unfolding outside the hotel's

doors. Unexpectedly, his reduced circumstances provide him entry into a much larger world of emotional discovery. Brimming with humor, a glittering cast of characters, and one beautifully rendered scene after another, this singular novel casts a spell as it relates the count's endeavor to gain a deeper understanding of what it means to be a man of purpose.

Tampa's Carrollwood Joshua McMorrow-Hernandez 2013 The story of the Carrollwood area stretches back to the 1890s, when Rev. Isaac Ward Bearss led a small caravan from Missouri to Florida and helped form a closely knit rural community between Lake Carroll and Lake Magdalene. Over the next six decades, citrus groves and cattle ranches flourished on those fertile soils--and so, too, did the vision of a young developer named Matt Jetton. In the late 1950s, Jetton bought more than 300 acres of land surrounding Lake Carroll and built the 925-home community known as Carrollwood. By the 1970s, many of the remaining citrus groves in

the areas surrounding the neighborhood gave way to new homes and businesses, and the Carrollwood name continued spreading north and west.

*James Crawford Master of the Mint at Carson*

*City* Rusty Goe 2007-07-26 This biography of the

fourth Superintendent of the Carson City Mint

(1874-1885) traces Crawford's life from his birth

in Kentucky; to his formative years in Illinois; to

his prospecting years in California's Gold Rush

Country; to his early years in Nevada's Lyon

County; culminating in his tenure at the Carson

City Mint. The book provides a panoramic view

of the sweeping history of Nevada's connection

to California's Gold Rush era; with an in-depth look into life in the Silver State's northwestern region from 1863 to 1885. Filled with never-before-presented facts about James Crawford and the Carson City Mint, the 650-page book is linked with stories about some of Nevada's most prominent historical figures and many contemporary events occurring in the United States and contains hundreds of references to coins struck at the Carson City Mint.

2020-11-09 Six thousand years ago, in the time

before the first megaliths and stone circles,

Druids appeared in small numbers throughout

Europe. They began an inexplicable migration

toward the Western Isles of Scotland. Among these was a Druid prophet, Lazwin. Lazwin predicted the coming of the Beltane child. The child would reunite the rune casters, gather the Druid faithful, and set in motion a series of events that would alter the history of Druid healing magic. Sadly, Lazwin's prophecies

*Double Dimes - the United States Twenty-Cent Piece* Lane Brunner 2014-07-28 The comprehensive reference to U.S. Twenty-cent pieces. The culmination of 30 years of research on the series, this book is the comprehensive reference on the short-lived twenty-cent piece. With nearly 400 photographs, this highly-illustrated reference provides extensive coverage of varieties and every known die marriage, including die states, emission sequences, and rarity ratings. The book provides the collector with a wealth of new information never before published, and hopes to instill enthusiasm in new collectors. Other topics include the history of the series, patterns, a

discussion on misplaced dates, collecting the series, grading, errors, exnumia, and survival estimates. A few interesting anecdotes round out the book with stories of discovery.

**The Social Media Reader** Michael Mandiberg 2012-03 The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The Social Media Reader is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts,

personal narratives from blogs, and whitepapers, The Social Media Reader promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson, Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian potential of new forms of surveillance and control.

It is a self-help book that will let readers know they are not alone.

**Drawdown** Paul Hawken 2017-04-18 • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world "At this point in time, the Drawdown book is exactly what is needed; a credible, conservative

solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, *Vox* “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have

come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world. *A History of the Rectangular Survey System* C.
