Tagalog Borrowings and Cognates Jean-Paul G. POTET 2016-06-25 Tagalog, spoken in Manila and the surrounding provinces, Luzon, Philippines, is a major language of the western branch of the Austronesian family. The bulk of this book is devoted to parallel words also found in Malay, a member of the

same branch. These words are either cognates descending from Proto-Austronesian or borrowings from the same foreign languages. Other cognates were found in Javanese, Malagasy, Tahitian and even Siamese. The last third of the book deals with Sanskrit, Arabic, Spanish, Chinese, Japanese and English loanwords.

Rare Earth Element

Geochemistry P. Henderson

2013-10-22 Developments in Geochemistry, Volume 2: Rare Earth Element Geochemistry presents the remarkable developments in the chemistry and geochemistry of the rare earth elements. This book discusses the analytical techniques and the recognition that rare earth fractionation occurs naturally in different ways. Organized into 13 chapters, this volume begins with an overview of the wide array of types and sizes of the cation coordination polyhedral in rock-forming minerals. This text then examines the application of rare earth element abundances to petrogenetic problems that has centered on the evolution of igneous rocks. Other chapters consider the matching of observed rare earth element abundances with those provided by the theoretical modeling of

petrogenetic processes. This book discusses as well the hypotheses on the genesis of a rock or mineral suite. The final chapter deals with the principal analytical methods. This book is a valuable resource for undergraduates, lecturers, and researchers who study petrology and geochemistry.

Stealing with Style Emyl

Jenkins 2006-06-30 Sterling Glass

has built a nice appraisal business in her small Virginia town. She's sought after to examine antiques, research their history, present her clients with approximate values, and help them distinguish good antiques from not so good ones. And when family skeletons are unearthed among the heirlooms, she is the soul of discretion. It's a world she navigates with ease. But that's before she's called in to examine a diamond brooch found tucked inside an oven mitt over at the Salvation Army thrift store. And before the appraisal of an extremely modest estate turns up a tea urn—hidden inside a basket—worth at least fifty grand. Things aren't adding up, and Sterling, never one to let go of loose ends, starts asking questions. It's not long before she uncovers an intricate plot involving a slew of antique pieces, the oldest families in Leemont, some

sophisticated scammers, crooked antiques dealers, and shifty people at the best New York auction houses. Add to that one elderly man who's just trying to preserve his family's treasured collection of bronze and ivory Art Deco sculptures, and suddenly Sterling finds herself ensnared in a mystery laced with greed, deceit, and danger. *Stealing with Style*, the first in the Sterling Glass series, introduces a writer of great wit who has a grand sense of the mystery hidden in our most treasured possessions.

The Construction of Discourse as Verbal Interaction María de los Ángeles Gómez González

2018-09-20 This edited volume showcases new work on discourse analysis by big names in the field and promising early-career researchers. Arising from the latest in the series of IWODA workshops in Santiago de Compostela, it provides novel insights into both the explicit and the implicit characteristics of discourse as used in verbal interaction. Discourse markers, as their name indicates, are among the explicit signals of coherence, while discourse relations may be either explicit or implicit. Similarly, the discourse used for purposes of evaluation, stance-taking and interpersonal engagement is either overt or covert, as is also true of the expression of emotions and empathy. This, in general terms, is the challenging terrain into which the contributors to this volume have ventured. The book combines theoretical issues with a practical orientation, comparing languages, analysing different

registers, studying the openings of Skype conversations, and much more besides; it will prove highly relevant for postgraduate and advanced practitioners of discourse analysis, interaction studies, semantics and pragmatics.

Northern Spain, Barcelona, Pamplona & Andorra

Kelby Carr
2010-09-14 The authors guide us through every corner of this fascinating region, where they have spent much of their time over many years. GaudiOCO's Sagrada Familia in Barcelona is one of the most unusual churches in the world, with its melting sand-castle appearance and odd bubble-shaped spires. Catalonia's Costa Brava provides stunning views as the Mediterranean waves clash with the jagged coastline. The stretch of small resort cities along the Costa Brava, which means the Rugged Coast, feels like a world caressed by the heavens. Stand above the rocks and look down to the sweeping coastline, the sea

stretching endlessly. Relax at a seaside bar, sipping cocktails. Hike the trails leading from the shore to the hills above. Unlike the tourist-swarmed French Riviera, the Costa Brava is intimate. It's like discovering a well-guarded secret. There are several busy resort cities, but there are also many quiet and isolated beaches. Some of the prime beach cities include Roses, L'Escala and Blanes. Mountain-climbing destinations, ski resorts, spa villages, Gallo-Roman ruins and prehistoric cave paintings are abundant in the region. Catalonia is marked by breathtaking cliffs, expanses of beaches and the thriving, hip seaside city of Barcelona. In the Navarre region, men taunt large, dangerous animals for PamplonaOCO's annual Running of the Bulls. Andorra is its own little world, and not just because it's a 290-square-mile independent principality (a fifth the size of Rhode Island). Nestled atop some

of the highest peaks of the Pyrenees, the principality is filled with amazing architecture, surreal panoramic views and some of Europe's finest ski resorts. Andorra attracts tourists for its duty-free shopping alone. Because many visitors are French and Spanish residents seeking bargains, there is a very authentic European flair to a vacation here on the one hand. On the other hand, the shopping deals can lend the principality's capital, Andorra la Vella, an unfortunate bargain-basement ambiance. Catalan is the national language, but French and Spanish are widely spoken. This is an ideal destination for lovers of both the city and the great outdoors. Quite possibly one of the globe's best adventure travel destinations, the capital city itself is also an urban oasis perched at an altitude of 3,300 feet."

Victoria Abril, Carmen Maura, and Antonio Banderas. This is the first volume in a new Greenwood series that discusses, historically and critically, films, directors, and actors in film industries throughout the world. Each volume will include a detailed historical introduction and will provide an in-depth treatment of the most important films and individuals involved in the industry. End-of-entry bibliographies provide sources for further reading and appendixes provide additional useful information. The Guides will be valuable to scholars, students, and film buffs. Spanish cinema is in many ways a microcosm of the tensions and conflicts that have shaped the evolution of the nation over the course of this century. Spanish film as a cultural institution is rarely divorced from the political and social currents that have shaped the larger Spanish culture torn as it was between tendencies of

localism and internationalism. It languished in industrial and artistic underdevelopment for many years under Franco; it is now, however, experiencing international recognition while remaining rooted in the specificity of its own popular cultural styles.

Chicano youngster Javier
Jimenez, finds himself forced into
an early manhood. The boy's
father, Nicols, a Korean War

pity. Javier tries his best to cope
not only with his own loneliness
but the day-to-day hardships of
living with an alcoholic father.
 Into this setting enters
Deborah Perkins. She moves into
Javiers neighborhood. Javier and
Deborah eventually fall in love,
much to the chagrin of Deborahs
mother, who doesnt share her
husbands fascination for
Southwestern culture and
believes her daughter can do

much better than what Javier has to offer. Tragedy strikes, and Javier moves to California to live with an aunt and uncle. Deborah and he struggle to continue their relationship despite the distance and Deborah's mother's prejudices. Confused and unsure of his future, Javier leaves college to join the Army and ends up in Vietnam, where he sees his fellow soldiers dying every day. Reminiscing about his father, he must face his own mortality, as he grapples with his own identity. Nicol's spirit appears at a critical moment with words to give Javier strength. Contemplating the real possibility of his death, he reconciles with himself, gaining strength from visions of his father as a good man who had his share of bad luck. Javier comes to grips with whether he has forgiven him for his frailties and failure as a parent.

Arabic and Persian Loan words in Tagalog Jean-Paul G. POTET
2013 The few, and generally obsolete Tagalog words of Arabic and/or Persian origin that can be found in old and modern dictionaries are fragments from a period when they must have been more numerous, although their number cannot ever have been very large. Some illustrate how Manila was an outpost of the Bornean polity based in Brunei, itself a part of the Indo-Javanese system, while others point at direct contacts with traders who spoke some varieties of Arabic, but were probably Indians, Persians, Armenians from Persia or even Turks. Thus these terms entered Tagalog over a very long period that lasted until the 19th Century.
